

SEMICON[®]
TAIWAN

Silicon Europe

JOINT BOOTH | SEMICON TAIWAN
SEPTEMBER 14 – 16, 2022

SEMICON Taiwan

SEMICON Taiwan is the most important annual trade event for the micro- and nanoelectronics industry in Taiwan and one of the largest semiconductor industry trade shows in the world with over 50,000 visitors and ~700 exhibitors (2019). **It is the perfect opportunity to enter the Taiwanese market e.g. for start-ups.**

Of course, Europe's semiconductor industry cannot be missing there. Hence, a joint booth for European companies has been organised since 2017. **Be part of this year's booth from September 14 – 16, 2022!**

Participation in the Silicon Europe joint booth offers you an **all-round trade fair service**. Silicon Saxony is taking over the complete stand organisation and support as well as the design/creation of your exhibitor terminal and the creation of an exhibitor directory for the stand.

SILICON EUROPE JOINT BOOTH

Concerned that you might be stuck in Taiwan several days before the fair due to quarantine regulations?

Free cancellation in case of quarantine

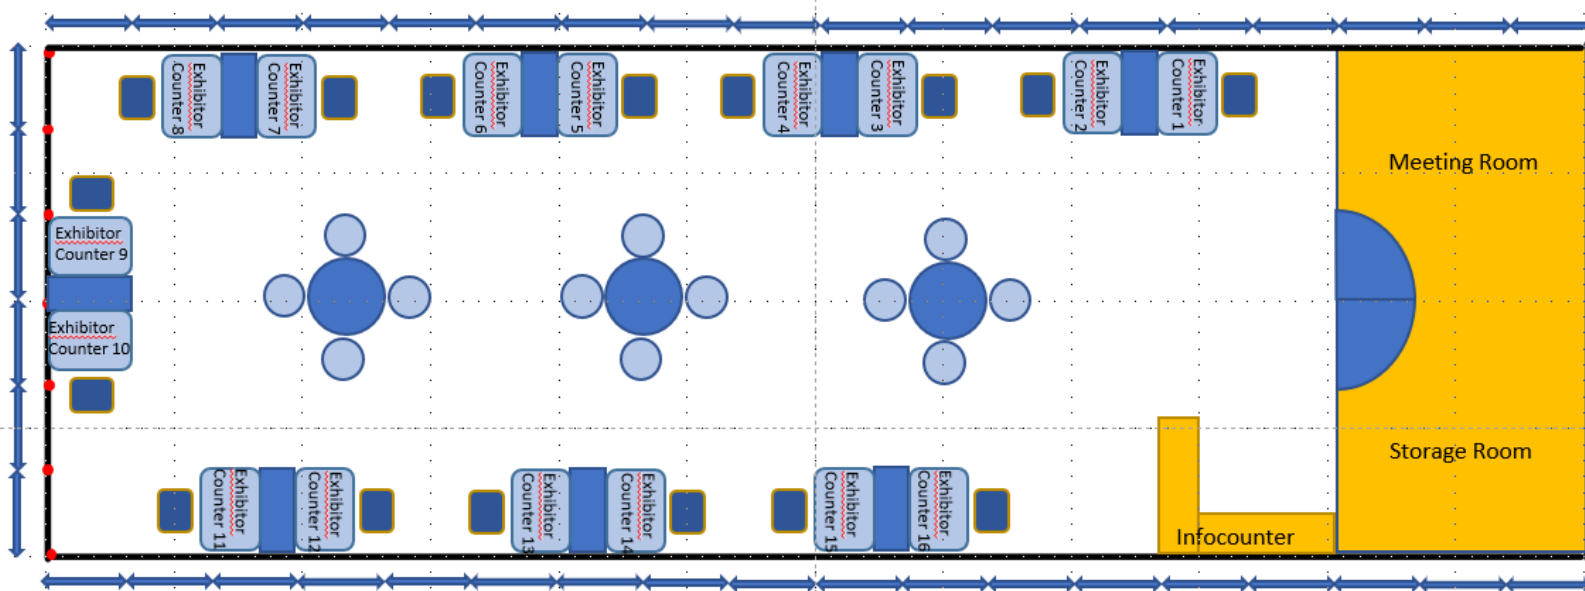

The quarantine regulation in Taiwan is expected to be lifted soon. We would like to give you some security though and offer you a free cancellation of your stand registration. If participation is not possible due to a renewed or still existing quarantine, you can cancel your booking at any time free of charge.
