

China-EU Semiconductor Summit

Under the rapid growth of Chinese semiconductor market and their urge to cooperate with European semiconductor companies, China brings a lot of opportunities. For this reason, we organise an event to bring together potential Chinese customers and EU IC Companies.

From the Chinese side, there will be Industrial leaders, active in the Consumer/ Mobile products, IC Distributors and other Semiconductor companies present. Amongst them are Silan, Oppo, Navinfo, Horestar, PAI Microelectronics and others to be announced.

You will be in the unique position to pitch your company directly to your potential customers and have 1-on-1 matchmaking meetings. During the event, keynote speakers from the Industry will address their thoughts (from both Chinese & EU perspective) on the IC market and trends.

September 10 2019

Conference Center, High Tech Campus, Eindhoven

Eager to know the market trends and features of the Chinese IC market? Looking for customers in China? Want to do (more) business in China? Or interested in trends or investments from China? Please join our China-EU Semiconductor Summit!
