Colloquium on KET for the connected and automated vehicle

8 June 2017 – French Embassy in Berlin

Posters

1. SigmaFusion: A Low-power sensor fusion solution for safe autonomous driving, *Julien Mottin, CEA LETI*
2. TRACE Project: qualifying consumer electronics for automotive applications, *Julien Mottin, CEA LETI*
3. ProBayes
4. Kalray
5. Embedded Bayesian Perception by Dynamic Occupancy Grid Filtering, *INRIA*
6. Fraunhofer IKTS
7. Terabee
8. CHRONOCAM
9. eHorizon: New services for connected vehicles, *Philippe Owezarski, CNRS-LAAS*
10. Image Sensors Test Solutions for autonomous driving, *Marcus Verhoeven, Aspect Systems GmbH*

>>Participants that would like to present a poster are invited to communicate:

- the name of the company
- the topic of the poster

to Laure Quintin, laure.quintin@minalogic.com (Minalogic) or Nadja Dehne, nadja.dehne@cool-silicon.de (Cool Silicon/ Silicon Saxony) via email.
